Bimeda UK's soluble glass bolus manufacturing facility in Denbigh, Wales

## BIMEDA UK. DID YOU KNOW THAT..?

...Every employee at Bimeda contributes towards our mission of **optimising the health and wellbeing of the world's animals.**

... We are the innovator and manufacturer of **the world's only soluble-glass trace element boluses** for cattle, calves, sheep and lambs. Our boluses provide trace elements which are vital for ongoing health, thrive and fertility.

## ABOUT BIMEDA IN THE UK

Bimeda is a dynamic, family-owned company with over six decades of experience in the veterinary pharmaceutical industry, and a passion for excellence in animal health.

Our UK facilities are based in Wales, with our headquarters, labelling and warehousing facility located in Llangefni, Anglesey. Our manufacturing facility is located in Denbigh, where we manufacture the world's only soluble glass trace element boluses.

Bimeda UK also has a committed field-based sales and technical team, who provide support to our customers across the length and breadth of the United Kingdom.

Bimeda has an ethos of continuous improvement and a values-driven culture, which celebrates collaboration, innovation, learning, customer focus and accountability.

... Bimeda manufactures the only OP Sheep Dip sold in the UK. Our **Gold Fleece Dip** plays a critical role in the fight against sheep scab; a highly contagious disease which causes significant health, welfare and productivity issues for sheep.

...By joining Bimeda, you will play a role in helping animal health professionals and animal lovers **to enhance the health and wellbeing** of cattle, sheep, horses, pigs and other animals.

**CHRIS PURT**  
EU Operations Manager

*“ Bimeda is a dynamic company where the employees have the opportunity to make decisions and drive the business forward through a culture of continuous improvement in a GMP environment. No roles are pigeon holed and it would be difficult to have the same level experience and exposure within any other organisation. It is truly inspirational how the company has grown since I joined in 2015 and the opportunities that are available. In Bimeda every employee matters and you are not just a cog in a machine.*

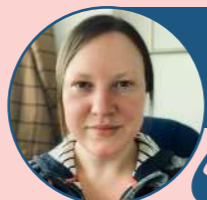

**RACHEL MALLET**  
Professional Services Veterinarian

*“ The best thing about working for Bimeda UK is the team culture and opportunities to continuously improve. We invest in our colleagues, and their ongoing development, with support and training for job satisfaction and to deliver the best service to our clients. Working in this industry allows us to make a positive impact on animal welfare and productivity which is extremely rewarding.*

**DAVID MEAD**  
Regional Sales Manager

*“ After 11 years at Bimeda I am still constantly learning new things and building relationships with different colleagues in all areas of the business. It is this variety of roles and seeing the business adapt to the changes in our market place that excites me most. There is also security in having a great team committed to doing the best job they can to ensure customer satisfaction allied to a supportive working environment. We also have a high standard of training in place both for technical competency on our product portfolio and for sales skills so Bimeda is investing in us for the future.*

**ELLEN DWIGHT**  
Plant Manager

*“ In the 10 years I have been with Bimeda I have had the opportunity to learn and develop my skills and experience in all areas of the business. From on-line production to Quality Assurance to leading site operations. Bimeda drives a culture of collaboration, whether that is the support of the close-nit team on site or engaging with individuals around the world. The Support and encouragement for personal development and ability to contribute to company change is a great positive. Being part of the Anglesey Site team also means I get to live and work in a great community and one of the most beautiful parts of North Wales.*

## WHY BIMEDA?

A career at Bimeda is extremely rewarding. You will learn a broad range of skills and may have the opportunity to collaborate with colleagues in different teams and locations.
